- ❖ Mr Ronel Maheshwari from USA sponsored Rs.1,50,000 for the restoration of Sevalaya's Mother Teresa Girls Home in the period of January 2024 to March 2024.
- ❖ This project benefits 100 orphan, poor and destitute children reside at Sevalaya's Mother Teresa Girls' Home in the age group of 5 to 18.
- ❖ The homes offer shelter, food and education, as well as opportunities for a healthy lifestyle and all round personality development in an atmosphere of love and care.
- ❖ In the girls home earlier it was a cemented floor only and during the recent Michaung cyclone water came inside the rooms. The children were shifted to primary school for safety. Then it was realized that the flooring height has to be raised to provide a safer environment in future. The floor now is a tiled one with raised height.
- ❖ Now the students have a clean and neat room. Students are also keeping their rooms clean

Specifications details:

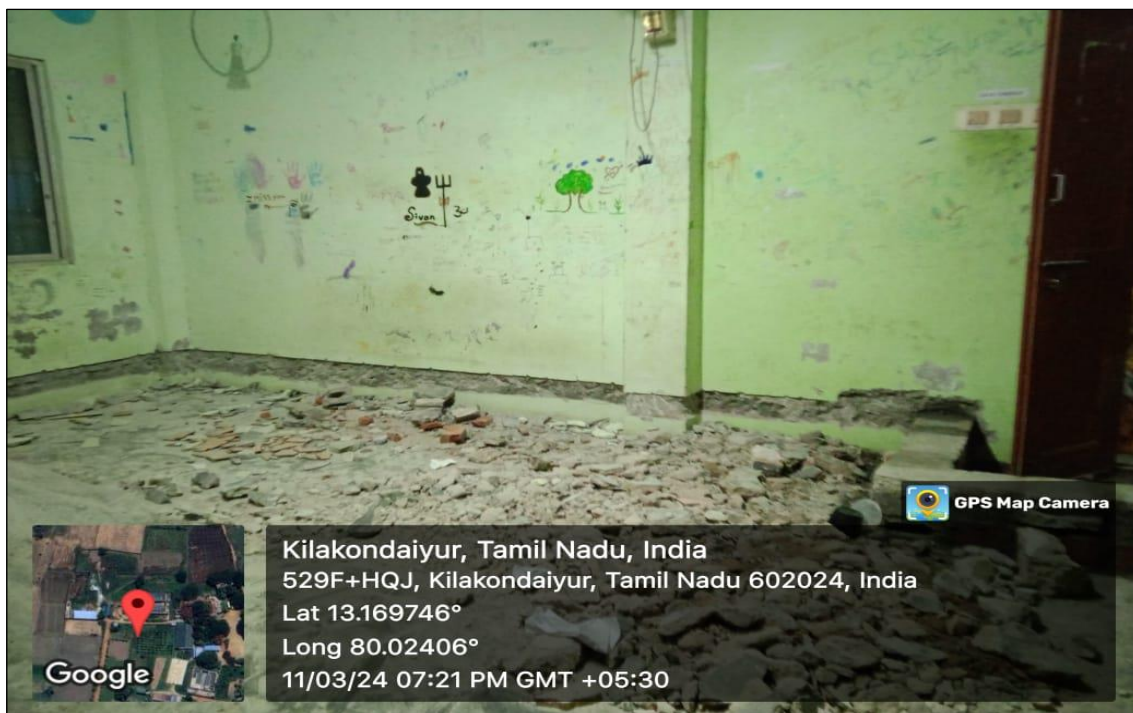

- ❖ Raising floor height about 12" from existing floor and providing 6" thick dust filling with tiles.

Fund Utilization summary : The overall budget for the project is **Rs. 1,50,000**

Feedback from Beneficiaries :

Student's feedback :

G. Archana – XII

During cyclone we were affected a lot and we have to spend a week in the school building. It was really a tough time for us. All the girls were very much affected since we have to take all our things to the school building walking through the hip height water in our campus. Our rooms were with water and our things too got spoiled.

After cyclone we cleaned the room thoroughly and stayed. Now we have got tiled floor which gives a comfortable living for us. We are very much thankful for the corporate RRD.

Impact of the Project :

- ❖ Clean and neat rooms
- ❖ Comfortable living for all the girls
- ❖ Safety from insects and snakes

Thank You

We extend our warm thanks to Mr Ronel from USA for his continuous support which benefits underprivileged children and their education. On behalf of all the children, Senior citizens and Staff members, we thank you for your generous contribution towards the development of infrastructure for the education of underprivileged children. We look forward to your long term support in future also.
